Only three European passengers with the second mate were saved, all the others are missing. Some may have succeeded in getting into boats and then have been blown out to sea. In that case they may be picked up later.

## SPANIARDS DYING IN CUBA.

Gen. Campos Notifies the Government to  
Expect Unfavorable News.

Havana, Aug. 8.—Gen. Campos could only muster about 600 men on arriving at Bayamo out of the 1,500 that he claimed to have had at the fight at Perales. Gen. Garcia Navarro, who went from Santiago to Manzanillo with 1,500 men and joined Gen. La Champa, returned a few days later to Santiago minus 500 men. Most of them had died of disease, principally of yellow fever and dysentery. It is understood that Gen. Campos has cabled home advising the government to be prepared for important and unfavorable advices from here in the near future.

Lieut. Trujillo, with four soldiers, has had an encounter near Lagunillas, province of Matanzas, with the insurgent band commanded by Simon Sanchez. The latter was killed and the troops captured a quantity of arms.

## No Riots in Salvador.

Panama, Aug. 8.—Authentic advices from Salvador contradict the exaggerated reports circulated of the condition of political affairs there. They do not sustain the announcement made of the riots in the republic, nor adverse criticism of the president. A London syndicate has offered a guarantee of \$5,000,000 to Salvador's agent to carry out practically all the railways building and projected in the republic. There are isolated cases of yellow fever in the country, but their number is decreasing and the disease is not epidemic.

C., for the appellants, the judicial committee of the privy council reserved judgment in the appeal regarding provincial prohibition in Canada, to decide whether the power to pass prohibitory liquor legislation belongs to the federal or to the provincial authorities in the dominion.

## NOMINATE JUDGE BABB.

Iowa Democrats Declare Against the  
Free Silver Idea.

Marshalltown, Iowa, Aug. 8.—The democratic state convention, the second which has been held here in seventeen years, was called to order in the Odeon Opera House by Chairman Howard at 10:30 o'clock yesterday. The convention contains 1,079 delegates, and every county is fully represented. From the first it was evident that there would be a hot fight on silver. The Rev. Father Linehan of the Catholic church in this city opened the meeting with prayer.

Mayor Pierce, the "Kid" Mayor of Marshalltown, made an address of wel-

money plank therein adopted, condemning the cowardice of the republican party in the recent state convention in ignoring state issues, urging a repeal of the mulct law and the enactment of a local option measure, and demanding that state institutions be governed by a single non-partisan board of control, and favoring the speedy completion of the Hennepin canal.

The minority report was then introduced, touching only the financial question and being an endorsement of the 16 to 1 free-coinage idea. Fiery speeches were made, and the uproar at times was furious. Finally a ballot was taken and the "sound money" advocates were shown to be in the lead by a vote of 651½ to 420½.

Judge Babb, after being nominated for governor by acclamation, made a brief speech of acceptance. Ex-Gov. Bestow was nominated for lieutenant-governor, Lyman B. Parshall of Maquoketa for state superintendent of schools, Col. George James of Dubuque for railroad commissioner and Senator Thomas A. Harper of Des Moines for Supreme court judge.

The convention adjourned about 6 o'clock.

The financial plank of the platform is as follows: "We reaffirm the following portion of the seventh plank of the last national democratic convention. We hold to the use of both gold and silver as the standard money of the country, and to coin both gold and silver without discrimination against either metal or charge for mintage; but the dollar unit of coinage of both metals must be of equal intrinsic and exchangeable value, or be adjusted by international agreement or by such safeguards of legislation as shall insure the maintenance of the parity of the two metals and the equal power of every dollar at all times, and we demand the paper currency shall be kept at par with and redeemable in such coin. We insist upon this policy as especially necessary for protection of farmers and laboring classes, the first and most defenseless victims of unstable money and fluctuating currency."

## AFTER A COUNTERFEITER.

Officers Hunting One More Member of  
the Brooklyn Gang.

New York, Aug. 8.—United States Commissioner Shields has, it is said, issued a warrant for the arrest of a member of the Bradford-Brockway band of counterfeiters not yet mentioned. No developments are reported in the case of the escape of the financial backer and leader in the enterprise, Dr. O. E. Bradford. An absorbing question to the secret service is whether the fiber paper found in the Hoboken cottage is the genuine product of the government mill at Dalton, Mass. There is a division of opinion among the experts upon the genuineness of the paper.

## Important Mining Case Decided.

Duluth, Minn., Aug. 8.—A decision handed down in the District Court yesterday in the case of Robert and Annie Crowley of Nova Scotia against the Nelson Lumber Company ends one of the most sensational attempts to steal, apparently, a \$150,000 mine ever known in this section of the country. By the decision the Crowleys are declared to have no right or title to the property, which is one of the richest on the Mesaba iron range, and their claim, that they were swindled out of the land, is declared to be wholly false and without foundation.

## Spaniards Were Badly Beaten.

Key West, Fla., Aug. 8.—Authentic reports from the battle of Bayamo are gradually being obtained. One received yesterday says that the Cubans counted 378 killed and wounded Spaniards on the field. The Cuban loss was 14 killed and 78 wounded. The Cubans captured 425 rifles, ten cases of ammunition, \$16,000 in cash and the baggage and pack animals of the Spaniards. Over 20,000 insurgents are under arms now in the province of Santiago de Cuba alone.

## New Census to Be Taken.

Milwaukee, Wis., Aug. 8.—Milwaukee is to have a new census, and it is confidently believed that it will show that this city has a population far in excess of 247,130, the figures announced by City Clerk Anderson, who a few days ago completed his enumeration. The report will cost about \$2,500, and the expense will be borne by the state.

## France Likes Our Cruiser.

Washington, Aug. 8.—News has reached the navy department that the French government has shown its appreciation of the fine capacities of the fleet cruiser Columbia by ordering the immediate construction of two vessels as nearly a duplicate of the famous American flyer as they can be made in the absence of our exact plans. They are to be known as "pirate cruisers," and, notwithstanding the criticisms that have been passed upon the Columbia because of her light battery, these French cruisers will have still smaller caliber guns, the largest being but 6.5 inches, as against 8-inch guns for the Columbia.

## Latest Telephone Litigation.

Washington, Aug. 8.—The report which comes from Boston that a suit has been brought to restrain the use of the Berliner patent discloses a policy which it is known that the Bell company has long since determined upon. The Berliner was recently declared by Judge Carpenter of the United States Circuit court to be invalid, but the Appellate court reversed Judge Carpenter's decision. The suit against the National company is the first one brought by the Bell company under that patent, and its result will determine whether the Bell company's patent shall continue another seventeen years.

## Danger for Torpedo-Boats.

Washington, Aug. 8.—There has been received at the navy department a sample of steel, three-fourths of an inch in thickness, which had been pierced by a rifle bullet of a caliber less than that of the present army rifle, or about .30. The sample is interesting in that it shows that the torpedo-boats may be rendered useless by good shots from such rifles. The distance from which the steel sample was pierced was about two hundred feet. A torpedo-boat armor, her boiler and explosives, might easily be pierced at this distance, or before she could make her projectile dangerous to a ship. The bullet was of steel and pointed. It made a remarkably clean hole in the steel.

## Rebuked the Councilmen.

Omaha, Neb., Aug. 8.—After convincing the ten members of the city council who defied the laws and the court's orders on last Friday that they acted without a precedent, and that they were really in contempt of court, Judge Hopeville dismissed them with a severe rebuke. The council had been ordered by the court not to approve the bonds of the new police commissioners, but had done so in defiance of the order.

## WERE WARNED IN TIME.

Americans in China Saved by Minister  
Denby's Foresight.

Washington, Aug. 8.—The United States anticipated Great Britain in taking the most energetic steps for the protection of the American missionaries in China. United States Minister Denby toward the close of June made a sweeping and peremptory demand upon the Chinese government, similar to that made yesterday by the British minister to Peking, for the fullest protection for

CHARLES DENBY.

all Americans living in China; for redress for the depredations committed upon their property and persons, and finally, for the capital punishment of the perpetrators, and in consequence, in all of the recent outrages committed upon the missionaries in China not one American was killed or injured, and while some American mission property was destroyed, it will doubtless be promptly paid for. In view of the energetic course which Mr. Denby has already adopted the state department has not deemed it necessary to send him further instructions for his guidance. He has already been authorized to confer freely with Admiral Carpenter, the commander of our naval forces in Chinese waters, and the admiral in turn has been instructed by the secretary of the navy to lend all proper assistance for the protection of Americans.

## MISSISSIPPI DEMOCRATS.

State Convention Assembled at Jackson  
—The Proceedings.

Jackson, Miss., Aug. 8.—The democratic state convention was called to order here at 12:10 yesterday by Chairman Booth. Senator J. Z. George was chosen permanent chairman. J. H. McLaurin was unanimously nominated for governor. The first ballot for lieutenant governor resulted in the nomination of J. H. Jones. J. L. Power of Hinds, a local favorite, was named for secretary of state on the first ballot. Col. W. D. Holder was nominated for auditor, and A. O. May of Simpson for treasurer, after which a recess until 9 p. m. was taken. At the evening session there was a fight on the nomination for attorney-general. Seven ballots were taken without result. Incorporated in the report of the committee on resolutions were the resolutions adopted at the convention of the silver democrats of Missouri at Pertle Springs, and they were adopted as the declarations of the Mississippi convention. The convention adjourned until this morning.

## Another Million for Europe.

New York, Aug. 8.—W. H. Crossman & Bro., coffee merchants, who have already sent away \$2,000,000 in gold, withdrew \$1,000,000 more from the sub-treasury yesterday for shipment on the Augusta Victoria to-day. ## Killed by an Insane Man.

Bloomington, Ill., Aug. 8.—Section Foreman Edward Studz, in charge of the tracks of the Alton road from Bloomington to Normal, was shot and killed yesterday by Jacob Alexander Sproyer, a member of his section gang. ## May Abandon Fort Buford.

Washington, Aug. 8.—The suggestion has been made that Fort Buford, North Dakota, be abandoned and the troops now there, two companies, sent to Fort Harrison, near Helena, Mont., and to Fort Assiniboine, Mont. It is probable that the post at Fort Yates, N. D., will be abandoned in time, but not until another post is built at Bismarck.

## Murder Mystery in San Francisco.

San Francisco, Cal., Aug. 8.—The police have another murder mystery to unravel. A stranger was found dying from gas asphyxiation in a room in a house of unsavory reputation. Nothing was found on the man's person to give any clue to his identity. His pockets were turned inside out and it was evident he had been robbed.

He was sentenced to twenty-two years imprisonment, which he is now serving in the Western Penitentiary, Allegheny, Pa.

THREE MEN KILLED  
IN A TRAIN WRECK"CANNON BALL" AND FREIGHT  
COME TOGETHER.

Accident Results in Three Deaths—Disaster on the Atlantic and Pacific Road—Twelve Persons Reported Killed and Twenty-Five Wounded—Relief Train Sent.

Plymouth, N. H., August 8.—The Cannon Ball collided with a freight at 6 o'clock this morning. There were killed and several injured.

Albuquerque, N. M., Aug. 8.—An awful accident occurred on the Atlantic & Pacific railroad, Grant Station, about 6 o'clock last evening.

The nearest telegraph station is twenty miles from the point at which the wreck occurred, and it is impossible to get the details at this hour. All that is positively known is that two sleeping cars and two day coaches of the train which left San Francisco Monday evening went into the ditch at the point named, and the railroad company sent to Albuquerque for all the physicians who could go.

The relief train left here at 9 o'clock, but owing to the condition of the road, on account of frequent washouts, cannot get there in less than four hours. It is reported that twelve people are killed and twenty-five wounded.

## ABSTAINERS IN NEW YORK.

Mgr. Satolli Takes Part in the Jubilee  
of the Union.

New York, Aug. 8.—The Columbus hall of the Paulists was filled to overflowing yesterday with delegates representing nearly 70,000 members of the Catholic Total Abstinence Union of America. This was the silver jubilee of the organization, the first state union having been brought into existence in Connecticut in 1870. In the morning the delegates marched to St. Patrick's Cathedral. Here there was a celebration of solemn high pontifical mass. Mgr. Satolli, the papal delegate, was the pontifical, Archbishop Corrigan and several visiting prelates assisting. Archbishop Ryan of Philadelphia preached the sermon and made a strong plea for total abstinence. When the delegates came together again at 2 o'clock General Secretary Doyle presented his annual report, showing a total membership of nearly 70,000, of which nearly 10,000 had been added since the beginning of the year.

## NEGROES CAN RETURN.

Trouble at Spring Valley, Ill., Said to  
Be Over.

Spring Valley, Ill., Aug. 8.—State troops, for the present at least, will not be ordered in this town. Peace has been declared, and the miners of Spring Valley yesterday adopted resolutions declaring that all men were free and equal, and that the negroes could return.

Colonel Bayle, Gov. Altgeld's representative, was informed by Sheriff Clark, Superintendent Dalzell and other citizens, miners and public officers, that no one had as yet been killed. All admitted, however, that 100 citizens, all colored, had been driven from their homes by a mob composed of Italian, Polish, Bavarian and Hungarian miners. Many shots were fired, and some colored miners were wounded and brutally beaten in the melee. These negroes, men, women and children, had been assailed and ruthlessly driven from their homes and forced to go to Seatonville. As to this outrage all were agreed, but that any one had been killed or fatally wounded both coal company officials, miners and officers of the law denied.

## Holmes' Fate in the Balance.

Chicago, Aug. 8.—It will be decided today or tomorrow just what steps will be taken to bring H. H. Holmes to account for his many crimes. Detective Geyer, who has been working on the Pitzel murders and who has been in Philadelphia for the last few days in conference with District Attorney Graham, left for Chicago last night and will arrive here some time today. He will have a conference with Chief Badenoach and State's Attorney Kern for the purpose of going through all the evidence which has been gathered here against Holmes. The Philadelphia detective will bring a carefully prepared resume of the evidence against Holmes at Philadelphia and Toronto, and after a comparison of notes it will be decided what is the next best move to make against the man accused of so many crimes.

## Provisional Government Named.

Havana, Aug. 8.—Reports from the rebel headquarters in Baire confirm the rumored foundation of a provisional government in the valley of the Yara. General Bartolome Masso, nominated by the general in chief, Maximo Gomez, was proclaimed as president by the revolutionary forces simultaneously in the central provinces and the department of the east.

## Central American Republics.

Washington, Aug. 8.—Minister Guzman is the only representative of the Central American republics at Washington now, and he has been unable to leave here owing to complication at Nicaragua, which rendered his presence necessary at the capital of the United States. He is not inclined to believe there is anything in the report that Barrios will become president of the five republics of Central America, and passes his opinion on a good foundation.

## Texas Silverites Adjourn.

Fort Worth, Tex., Aug. 8.—The silver convention, which was expected to last two days, adjourned sine die at a late hour Tuesday. At the night session resolutions were passed declaring in favor of free coinage of silver at 16 to 1, independent of international agreement, and criticizing the financial policy of the present administration.

JUDGE W. I. BABB.

come. Judge Nathaniel French of Davenport was made temporary chairman, and addressed the convention for nearly two hours. He stirred up the blood of the silver men in an exhaustive discussion of the money question, taking the position of Grover Cleveland and endorsing his policy.

At the outset of his speech Mr. French reviewed the history of the prohibition question in Iowa for the past thirteen years, and spoke of the political significance, saying that the democrats of the state were confronted with the same problem—to eliminate the prohibitory liquor amendment—and must repeat their pledges made thirteen years ago.

The majority report of the committee on resolutions was read, reaffirming the national platform of 1892, endorsing the

## ROW OVER A R O STIRS UP AFTON

### PROJECTED HIGHWAY CAUSES CONSIDERABLE FEELING.

One Faction Wants To Build A Highway Across the Marsh, while the Other Side Does Not—Wide Difference in the Estimates of Cost—Public Meeting Held.

General J. B. Doe may have to be sent to Afton to settle the "Baas Creek road war" if such a term can be applied to the disagreement that is now agitating the tax payers of that vicinity. The trouble is over a road and the end is not yet.

"Some time ago" said a man who hails from that vicinity, this morning "a petition was circulated praying for the opening up of a cross road that runs through Afton over the high hill and across the marsh. It is said that the road would not cost much, about \$700. To lay it out meant filling in the marsh where the road crossed it and cutting down the hill. The new highway, they argued, would serve much travel, as the only way to cross the creek and marsh is now by way of Hanover or Afton which is five or six miles out of the way. The new scheme looked favorable, and many people signed the petition.

Public Meeting Called.  
"Then, however, some of the people began to think the thing over. Murmurs of dissatisfaction were heard and the complaints finally culminated in the calling of a meeting of the tax payers to talk thereupon. The result of this conference was the side-tracking of the enterprise, and many people who had signed the petition then withdrew their names from the list. That is the way it stands now and considerable feeling has been worked up. The road would be about a mile long, and would mean the filling up of the marsh and the cutting down of the hill, both of which, the men who opposed the scheme held, would be expensive. A civil engineer was finally hired and they say that his report was to the effect that the work, at a conservative estimate, would cost in the neighborhood of \$7,000, or about ten times what was first figured on. I do not know what the outcome will be. One side wants the road and the other side does not. Both are sure that they are right. The projectors say that it would shorten the distance enough to be worth the money while others say it would be an unwarranted expense. And there you are."

### FROM AUGUST MAGAZINES

The North American Review for August contains an article on "Leo XIII and the Social Question," by the Rev. J. A. Zahm, Professor of Physics at the University of Notre Dame, Indiana. A unique interest attaches itself to this particular contribution, it having formed the subject of a conversation between his holiness and Fr. Zahm, the pope sending through the Review a message to the people of the United States.

A NEW sport, more thrilling than any known to Nimrod, more dangerous than was ever experienced by even a Buffalo Bill, is exploited in the August Cosmopolitan, in an article on "Photographing Big Game in the Rocky Mountains," before shooting.

The forth coming international yacht race gives an additional strength to the article on "The Yacht as a Naval Auxiliary," by the Hon. Wm. McAdoo, assistant secretary of the navy, in the August number of the Forth American Review.

ONE of Anna Katharine Green's exciting stories of hidden crime and its detection is the leading feature of Romance for August. In addition there are interesting tales by such authors of note as Grant Allen, Anthony Hope and others.

The first of Anthony Hope's new series of Zenda stories, in McClure's magazine for August, reciting a heroic love passage between the beautiful Princess Osra and brave Stephen the Smith, is most charming.

HARPER'S Weekly in the near future will publish a four-page supplement describing the annual cruise of the New York Yacht Club, with illustrations by T. de Thulstrup.

Not since "The Anglomaniacs" has there been so clever a society satire as Henry Fuller's "Pilgrim Sons," which is published in the August Cosmopolitan.

We ask our friends to aid us and we solicit gifts of furniture suitable to reading rooms, parlor, dormitory, etc. All ladies interested in our work are earnestly requested to send in their names and one dollar annual dues. ## PRICE OF PRINT PAPER TO GO UP.

Many Mills Closed Down For Lack of Water Power.

The price of news or print paper is slated for a rise. Within a year the daily estimated output of news paper has decreased from 1400 tons to 800 tons, while the demand has increased. These favorable conditions of trade, it is said, have practically dissipated the probability of a trust agreement between the paper mills of the country, because the big mills, with improved machinery and fair water supply, will not enter into an agreement with mills which, for lack of water, are not able to compete.

The rise in price will take effect soon. The increase is estimated at from \$3 to \$7 a ton. One ton of ordinary white paper will produce 15,000 eight-page newspapers. However, The Gazette bought a very large stock "before the raise" and for the present the price of this really good journal will not be increased. Now is the time to subscribe.

## GAVE A CHARMING RECEPTION

Messames Osgood and Wilson Entertained Most Pleasantly Yesterday Afternoon.

A charming reception was given from 2 to 6 o'clock yesterday afternoon by Messames George H. Osgood and A. O. Wilson at the home of the former 252 South Jackson street. Yellow was the predominating color in the decorations and the rooms were very effectively arranged.

Misses Genevieve Wilson and Virginia Hyner met the guests at the door on their arrival while the tables were in charge of Misses Alice Farnsworth, Clara Shurtliff, May Atwood and Katherine Byers. Mr. and Mrs. G. A. Shurtliff did the catering. One hundred and seventy guests enjoyed the hospitality of the hostess and the affair was most pleasant in every respect.

## MUCH STOCK SENT FROM HERE

The City is Well Known Among Chicago Buyers.

"Janesville is as well known as a stock shipping center as any city of its size in the Northwest" was the remark that was made this morning by a well known railroad official who was in the city. There is little reason why this should not be true, for the city has for years past had stock buyers who have made it a business to search the surrounding country in their endeavor to find any and all grades of stock, which are sent to the Janesville yards before their ship ment to the Chicago market. It is seldom that a week passes without the railroad companies being favored by good sized shipments.

## FOUR BURLY TRAMPS RUN SPRING BROOK

### THEY ROB GARDENS AND TERRIFY CHILDREN.

Slack Work on the Bridge Makes Folks in the Addition Impatient—New Machines in the Hall Factory—Pearl Hunters Unrewarded—Personal news Notes.

Spring Brook is having her there of excitement. People no more than stop talking about the old-fashioned discipline applied to a rebellious young lady than along come four burly tramps who try to run the addition. The tramps have been hanging about the place for a number of days, but not until they plundered a bed of onions belonging to E. N. Spicer was much attention paid to them. Other raids on gardens followed. A son of J. C. Schuler discovered a six-footer filling a bag with potatoes out of the Schuler patch. Other gardens have been despoiled and oats have been taken from the Spicer barn. Women and children are frightened, and unless tramps keep out of the way in the future, there is talk of somebody arranging a second Holmes mystery.

While early threshers were getting ready for work, they saw a pair of tramps coming from R. Cronin's barn, where a well-shaped straw bed told of their spending the night.

### Slow Work A Bridge

"Talk about delay," remarked a McKay Boulevard man, "if the closing up of the Jackson Street Bridge isn't the worst example I miss my guess. How long would the people stand such a piece of work on Milwaukee street?"

This seems to be the favorite comment in this part of the city at present. Spring Brook folks say they have been cut off from the world long enough.

Samuels and Kuehn say the closing up of the Jackson Street bridge has damaged trade and other make similar estimates.

The Hall Furniture factory recently put in three new machines increasing its capacity greatly.

The foundation for another new house has been started on Elliott street for C. Smith to cost when completed about \$1200.

A new electric light will soon be shining on Eastern avenue at the corner of Armour street, much improving that part of the city.

### No Pearls Brought to Light.

Pearl fever has struck Spring Brook. No finds are reported as yet.

A camp of gypsies have pitched their tents near Athletic park, and judging from the number of horses they carry, they will furnish the farmers in the vicinity with plenty of business.

A baby boy has arrived at the Eastern avenue home of Mr. and Mrs. C. Lawrence, and all is well.

F. O. Samuels has returned home after being out with the Spring Brook threshing crew for a week. The crew are working near Twin Lake.

## THE HORSES AND HOW THEY GO

H. D. McKINNEY's good colt Ogden Phallmont had a hot race at Waukesha yesterday and succeeded in winning second money, the first division falling to Mediumwood of T. J. Dunbar's stable. Mediumwood won first, second and fourth heats and Ogden Phallmont won the third heat. Charlie S. and Evalene E. were distanced in the third and first heats respectively.

Old Thalburg, who has frequently trotted over the Janesville track, won the 2:19 class purse at Streator, Ill., yesterday, going in 2:20. Thalburg has probably won more races, without reducing his record, than any horse on the turf. Driver Bates "wakes him up" in a hot brush, they say, by twisting his tail.

RAY W., the big trotter that won the money for 2:40 trotters here, going in 2:21 class purse at Morris, Ill., yesterday, and made a mile in 2:18. Ray W. has been a winner in a majority of her races so far this season.

HAIR CLOUD, a horse that paced here last month, won the money for the 2:25 class at Morris, Ill., yesterday, defeating Frank Hayes, Flora Sael and others, and turning the track in 2:14.

WARREN P., McHenry's fast 2:26 class trotter won the money at Buffalo, going in 2:16. Warren was in the same class here but "got the badner" after he had won a heat.

JOHN KELLY started his horse Eastview in the 2:23 class trotting race at Buffalo yesterday and had third place in the money when the race went over until today.

A good many of the horses that we here last July are now at Galesburg, notably the stables of C. A. Niles, J. B. Chandler and J. W. Zibbe.

SPHINXETTA won the free-for-all pacing purse at Waukesha yesterday, defeating Vera Capell, Giles Noyes, Snowman, and Rolettas. Best time 2:15.

WZMAKHA a horse that is well known here, defeated the 2:26 class trotters at Waukesha yesterday.

BON AMI, a horse that is well known here, won the 2:25 trotting purse at Morris, Ill., yesterday.

M. J. CUE's horse won the trotting race at the Edgerton picnic yesterday.

Delightful indeed was the entertainment given by home talent at the Baptist church last evening under the direction of Miss Katherine Page, assisted by Mrs. J. H. Huntress and Mrs. H. Pennick. S. Lovejoy sang the solo in "Home Sweet Home," and Misses Maude McDonald, Grace Nott, Maude Young and Bertha Hodgdon acted as ushers. ## SHARKS AND GREAT TURTLES

Colonel Britton Says Sea Monsters Attract Attention At Asbury Park.

Col. W. B. Britton writes from Asbury Park that the chief attractions have been a large shark and two immense sea turtles. One of the turtles is eight feet long and seven feet from the tips of his flippers and weight 875 pounds. Mr. Bradley, founder of Asbury park, saw that thousands were attracted by the sight and built a large tank to hold his catch.

He was offered \$50 for one of the shells when the present tenant moves out. Col. and Mrs. Britton will stay at Asbury Park until Monday and will then go to New York.

"There are 107 trains a day here, arriving and departing, and all seem crowded," writes the colonel. He also remarks that it was a tally-ho and not trolley car on which his trip to Shrewsbury river was made.

Mrs. Ponsonby presents herself to Mme. Valerie, the modiste, to point out an error in the monumental bill for her summer costumes.

"Madame will notice that the ribbon on the challee gown is charged at 85 cents a yard, and the ribbon on the surah gown at \$1 a yard, and yet precisely the same kind of ribbon was used! A mistake, of course!" murmurs Mrs. Ponsonby, in suspiciously sweet tones, a steely glitter in her eye the while.

"Ah!" cries madame, "Quel malheur! What a stupid bookkeeper is mine! Of course it is a mistake, my dear Mrs. Ponsonby. I am desolated it should occur! I will rectify it at once. Both ribbons should have been charged at \$1."—Truth.

**To Write Upon the Sea of Agony**  
Is what people troubled with rheumatic symptoms can fairly expect, if they take no efficient means to check the rapidly growing malady which, it should never be forgotten, has a tendency to attack the heart and terminate life. The testimony, public and professional, is overwhelmingly convincing and concurrent that Hostetter's Stomach Bitters is both a sovereign preventive and curative of rheumatism. It completely expurgates from the blood the acrid principle which, attacking the tissues surrounding the joints and muscles, causes such exquisite pain. The Bitters promotes the action of the kidneys, bladder, stomach and bowels, and remedies malaria, nervousness and debility. It also induces appetite and sound repose, hastens convalescence after exhausting maladies and mitigates the infirmities of age. Take it daily at regular intervals, and confidently expect the best of results.

# Narcoti-Cure

**CURES THE TOBACCO HABIT  
IN 4 TO 10 DAYS  
OR MONEY REFUNDED.**

Use All the Tobacco You Want Till Your "Craving" is Gone.

Narcoti-Cure is the only remedy in the world that acts directly on the nerves and drives the nicotine from the system in four to ten days. It leaves the patient in better health than before taking, and is warranted free from all injurious ingredients.

Narcoti-Cure is popular because it allows the patient to use all the tobacco he wants while under treatment, or until the "craving" and "hankering" are gone. It is then no sacrifice to throw away tobacco forever.

Narcoti-Cure is sold at the uniform price of \$5 a bottle, and one bottle cures.

Money refunded if a cure is not effected when taken according to directions.

Of Amherst, Mass., Chewed Tobacco  
For 46 Years, and Was Cured  
by Narcoti-Cure.

AMHERST, Mass., Feb. 8, 1895.

The Narcoti Chemical Co.,  
Springfield, Mass.  
Gentlemen:—Replying to yours of the 1st would say that I have used tobacco for 46 years and of late have consumed a 10 cent plug a day, besides smoking considerably. I commenced to use tobacco when I was only 11 years old, and have never been able to give up the habit until I took Narcoti-Cure, although I have tried other so-called remedies without effect. After using your remedy four days all "hankering" for chewing disappeared, and in four days more smoking became unpleasant. I have no further desire for the weed, and experienced no bad effects, whatever. I am gaining flesh, and feel better than I have for a long time. To all who wish to be free from the tobacco habit I would say use Narcoti-Cure.

Yours truly, W. N. WAITE.

If your druggist is unable to give you full particulars about NARCOTI-CURE, send to us for Book of Particulars free, or send \$5 for a bottle by mail.

## NOT ALTOGETHER CHEERING.

A free trade organ finds in the heavy and increasing importations a cheering evidence of business recovery, taking the figures for the last fiscal year, which show the value of imports to have been in excess of the preceding year to the amount of over \$88,000,000, while exports declined as compared with the previous year. This supporter of the democratic tariff policy sees in this state of facts everything to be pleased with, regardless of the fact that the increased importations have failed to supply the treasury with sufficient revenue to meet expenditures and have also prevented a restoration of the wages of American labor to the standard of three years ago.

The statistics show that there was an increase in the value of imports for the last fiscal year of about \$88,000,000 and a decrease in the value of exports of \$84,000,000—a total of \$172,000,000 on the wrong side of our international exchanges. How this can be regarded as a cheering fact it is not easy to understand, except upon the hypothesis that it is a good thing to increase our purchase of foreign products and reduce our sales abroad. Ever since reciprocity was abandoned we have been losing ground in the European markets, while the manufacturers of Europe have been getting a better foothold in the American market than ever before.

There is a revival of business. The industries are more active than a year ago and labor is better employed and better paid. But how long will this condition continue under increasing importations that compete with our domestic manufacturers and a reduced demand abroad for our products? Can we increase our prosperity by increasing indebtedness to Europe?

## A SOP FOR GORMAN.

Mr. Cleveland's friends say he does not want a fourth nomination. If not why is he bending the knee to foes of three years ago?

The things Mr. Cleveland said about Gorman made blisters rise on the asphalt pavement of the capital. They might have affected the senator himself, had he not been so used to the vicissitudes of "politics for revenue only." The president's charges covered every crime from high treason to petty larceny. Gorman was denounced as a foe to his party a menace to his country, and a reproach upon mankind.

## What a change since then!

Gorman controls the Maryland state ticket and is its master. At once the president's bitterness is succeeded by an enthusiastic admiration. All the resources of the administration are put at the Maryland senators' service, and Secretary Lamont goes to Baltimore with assurances of distinguished consideration.

So thinly veiled are the Maryland tactics that they furnish reminders of that other emergency when Mr. Cleveland bought a rebellious democratic majority in the house by large lumps of federal patronage. If the president does not seek a fourth nomination he certainly is using the place-hunter's tools in a way to justify the suspicion.

If it be fair to dock the private secretary of a secretary for being absent from his desk longer than the law provides for, why isn't it fair to apply the same rule to the Secretary? Respectfully referred to Mr. Cleveland's junketing cabinet.

As if one meddler wasn't enough there are now three mixed up in the Fox river affair. General Doe, Col-

onel Palfrey and Engineer Mann each disclaims responsibility but between them they have left Appleton in total darkness, have thrown 6,000 men out of work and are damaging the manufacturing interests of the state millions of dollars a day.

If we are soon to be telegraphing without wires, as certain scientists claim, may we not also soon be eating without food, swimming without water, enjoying ourselves without girls, and doing other seemingly impossible things?

Milwaukee people say that unless H. H. Holmes has been in the city there are 20,000 more people living somewhere around town that the census should bring to light. A recount will be made.

Anything the Illinois Central doesn't own in Chicago the council seems perfectly willing to give it. A republican mayor is the only safe guard the city appears to have.

Just one democratic senator has been able to control a state convention this year. That was Gorman, but it looks as if even he couldn't control the election.

Ambassador Bayard appears to think that Mr. Cleveland ought to have a third term, and that it should be for life. Poor Bayard!

## The Trouble.

Scene: Private office of Widowly. His friend, Lonesomy, has just called. Lonesomy—Hello, old man! Thought I'd come round and condole with you. My wife is also away.

Widowly—Don't be sarcastic. It's not the loneliness that worries me, but the matter of letter writing.

Lonesomy—How so?

Widowly—Well, if I fill my letters with declarations of love, and tell her how I miss her, she'll come home to enjoy the sentimentality at closer range; if I write an indifferent letter, she'll come home to see what's the matter; and if I don't write at all, she'll come home to see if I've run off with another woman. So what's a man to do?—Truth.

## MORE DIPHTHERIA IN CLINTON

Another Case, But Dr. George Covert Thinks the Scare is Ended.

Another case of diphtheria is reported from Clinton but the scare is subsiding. Dr. George Covert, health officer, of the town of Clinton sends the Gazette this account of the outbreak:

"EDITOR GAZETTE—As exaggerated accounts of our 'diphtheria scare' have been published in our neighboring cities, I set out to give a true version of the facts. There is much controversy in regard to the disease, but as it has proved fatal and proved contagious there is little room for doubt. The first case to attract attention was at the Commercial Hotel, a servant girl, Wolf by name. The attending physician, Montgomery, pronounced it 'tonsillitis' or 'cankered sore throat.' Not many hours before the patient died, I, as health officer, for the town, pronounced it 'diphtheria.' Later, the village health officer, Jones, saw the patient and declared it 'acute laryngitis.'"

A sister of this girl contracted the disease, was taken to her father's home in the country and died within forty-eight hours after her sister. The parents and another sister also contracted the same disease, but prompt measures saved them. The undertaker, M. P. Treat, who encoffined the first victim, likewise contracted the disease and has had it in a very severe form.

There was no need for any spread of the disease had our board of health done its duty and not relied upon the ipse dixit of those who say they have never seen any diphtheria.

Therefore, our board of health is responsible for our 'scare' and the unnecessary spread of the disease, although they were misled by trusting to the opinion of the physician in charge of the first case. The inefficiency of the board has caused a great deal of hard feeling and adverse comment but we hope now the disease is suppressed. GEORGE COVERT.

## SOUGHT HER SPOUSE WITH HORSE WHIP

MRS. CARROLL USED A GAD ON  
HER HUSBAND.

Scene Took Place on the Road Near Edgerton, Where Mr. Carroll Had Gone To Attend a Picnic—His Jealousy Said To Be the Cause—Scene at the Hotel.

A horsewhip wielded by a slender woman sang through the air on a country road near Edgerton yesterday afternoon and then landed on the back of a man who rode in a buggy with two others. Mrs. J. H. Carroll swung the whalebone and the object of her indignation was her husband.

Another chapter in which a stranger took part occurred at the Hotel Myers where Mr. and Mrs. Carroll reside, later in the evening and came near ending in a "wholesale punching."

Mr. and Mrs. Carroll came to Janesville some time ago, he being in the employ of James H. McDonald & Co., the commission merchants on the Corn Exchange. Mrs. Carroll is a fine looking lady and impressed all who saw her, as being exceptionally modest and ladylike. Her husband did not look like a man who deserved a horse whipping, as he is a smooth-faced, business-like young fellow with curly hair and affable ways. It is said, however, that he was jealous of Mrs. Carroll and laid down rules for her deportment that she regarded as unjust.

He wanted her, the story goes, to stay at the hotel and not be seen about the streets.

Bicycle Was Banned Out.

The result was that Mrs. Carroll did not become acquainted much in Janesville and spent most of her time in her room. She had a bicycle, but it was said that her husband did not approve of its use and she did not ride it. This restraint, it was said, finally grew irksome and she insisted that her husband, when he wasn't at work, observe the same strict rules and spend his evenings with her.

When he left for Edgerton to attend the picnic yesterday, she became indignant. Carroll went up in a wagonette with some other men, and as soon as Mrs. Carroll heard of it, she hired a buggy and followed him. When she got to Edgerton she did not at once find Mr. Carroll, but finally met him on the road in a buggy with two other men, who were returning from Edgerton to the picnic ground. Then she grabbed the whip from the socket and raised it over her head. An instant later it came whizzing through the air and the flexible end wound about her husband's shoulders. He was greatly surprised by the onslaught and when she called upon him to come with her he climbed out of his buggy and into hers.

Traveling Man in Close Quarters.

Then they drove straight to Janesville and went up to their room. Later in the evening Mr. Carroll came down stairs and went into the barroom. Mrs. Carroll waited awhile and then sent down for her husband. He did not respond so she came herself. After Mr. Carroll had started from the bar room a traveling man took a hand.

"Mrs. Carroll you are making a fool of yourself," he said. "Can't you let your husband spend a little time with a few friends without making an exhibition of yourself?"

Then he proceeded to read her a curtain lecture while the bystanders, whose sympathies were all with the wife, shifted about nervously. They listened as long as they thought proper and then one of them spoke.

"Mrs. Carroll is right, and this affair is none of your business," he said, addressing the traveling man, while the others all edged up within reaching distance. The traveling man was backed by several friends and for a time things looked equally. The traveling man got a pretty thorough roasting before the conversation ended, and the listeners, most of whom sympathized deeply with the indignant woman, endorsed what was said fully.

AIR A FAMILY FIGHT IN COURT

Mrs. "Blackhawk" Brown Causes Her Daughter-in-Law's Arrest.

After hibernating, so to speak, for 10, those many months, Mrs. Ann J. Brown, better known, perhaps, as "Mrs. Blackhawk Brown," came to the surface this morning, and headed straight for the municipal court. Half an hour later she had "made her mark" on a complaint and was happy.

In consequence of her visit, Clerk Williams handed Officer Wallace Cochran a warrant commanding him to proceed, forthwith, to arrest one Bertha Brown, wife of James Brown, and daughter-in-law of the said Ann J. Brown, and bring her before the bar of the court. The document to which Mrs. Ann Brown had affixed her name was a complaint set forth that Mrs. Bertha Brown had assaulted, beat, bruised and wounded the aforementioned Mrs. Ann J. Brown—or words to that effect. Officer Cochran was authorized to summon Mrs. Dresser, Mrs. Lightfoot and Mrs. Wickmire to appear and testify.

When they all gathered at the court room, by consent of the parties and their attorneys, W. G. Wheeler and L. F. Patten the case was adjourned until 3 o'clock tomorrow afternoon when the whole story will be told, the defendant, in the meantime being left in the custody of the arresting officer.

William Peters, who was arrested last night for being drunk and disorderly was before the municipal court this morning, but as he had a wife

and family and promised to do better in the future he was discharged.

The case of the state against Ellen Shafer, who is charged with selling liquor without a license was called at Edgerton yesterday and adjourned until August 17 on account of the absence of a material witness for the defense. District Attorney Jackson represented the state and H. S. Sloan appeared for the defense.

## OLE JACOBSON WAS DISMISSED

He Will Not Be Prosecuted For the Embezzlement That Was Charged.

The case of the state against Ole Jacobson, who was charged with embezzling \$85 from Olava Thompson, was dismissed when it came before Judge Phelps in the municipal court today. District Attorney Jackson filed his reasons for not filing an information against Jacobson, they being that from the evidence of the complaining witness, Olava Thompson, it did not appear that any fiducial relations existed between the complaining witness and the defendant. Nor did it appear that Jacobson had any unlawful or fraudulent intent to embezzle or misappropriate the funds of the defendant. Jacobson was arrested and examined at Edgerton and held for trial by the authorities of that city.

A transcript was forwarded to New York city, and personal service was secured on Corbett July 2, and when the sheriff started garnishee proceedings against Phil Dwyer, the holder of the \$10,000 purse for the Fitzsimmons' contest at Dallas, Tex., the judgment was settled in full, with accumulated costs.

## DEATH NEAR HER BOY WHILE SHE TOILED

MRS. BAHR'S INFANT DIES OF  
DIPHTHERIA.

Mother Did Not Know the Nature of the Disease, and Worked Out All Day Yesterday—Child Had Been Sick Since Monday, But Supposedly in No Danger.

Mrs. Emeline Bahr worked all day yesterday for Mrs. F. W. Douglas and Mrs. Nichols.

Then she went home. Five hours afterward her seventeen months' old son, Ernest, lay dead upon the bed.

Malignant diphtheria was the cause. For some days past the little child had been ailing, but Mrs. Bahr had not thought the illness of importance. When she got home last night she found the babe ill. Then she decided to have a physician and one was called.

He looked at the little one and saw at a glance that the disease was diphtheria and of a malignant type. All that could be done to relieve him was done, but without avail and at 1 o'clock this morning death came.

Health Officer Gibson was at once notified and hastened to the house. He had not been notified of the disease because no physician had seen the child until last night, although it had been unwell since Monday. Prompt measures were at once taken to prevent any further spread and the house was fully quarantined while Chief Acheson at once secured a watchman to enforce the quarantine regulation. Mrs. Bahr is a widow and lives at 302 South Linn street. Her husband died three months before the boy was born. The remains of the child will be interred tonight.

## OPENED TEN BUSHELS OF CLAMS

Two Bottles Full of Pearls Found by Indefatigable Fishermen.

B. D. Rockwood and Pat Comerfort both of this city have opened about as many clams since last Thursday as anybody. They say they have tackled ten bushels, which have yielded them two small bottles, full of all kinds and all shapes of pearls. In a great many of the clams and especially the old ones they have found the pearl hidden away in the fleshy part of the clam. In one clam they found eighteen supposed pearls, while as high as eight were formed in a single cluster.

## "Hard To Understand!"

Yes, it is hard to understand, but it is easy to misunderstand. Our understanding is limited. Our misunderstanding is boundless.

We owe it to ourselves to speak openly and in unimpeachable words. We can not afford to misunderstand each other.

A little more patience, a little more straightforwardness, and there might be a great deal more friendliness.

The religious unity of mankind can never be achieved until our misunderstandings are converted into understandings.

## BEAUTY AND DIET.

Beets as a Complexion Beautifier and Tonic—Other Vegetables.

A notable cosmetic which dates as far back as the good Queen Mary of Orange is the juice of sugar beets, boiled, peeled, sliced and set before the fire to draw the rich syrupy juice out. This, in tablespoonful doses, once an hour, with as much lemon juice or port wine as agreeable, is said to be the material for making pure blood, next to fresh grape juice. Of course anything that makes new, rich blood is a fine tonic also, and plenty of fresh beets in salad will add plumpness to the thinnest form, provided the beets are boiled tender and slowly eaten. Thick beet juice with a few drops of lemon juice is a nice application for the cheeks to soften them and preserve their color. This and the vegetable lotions generally are allowed to

CAPE.

dry on the face as long as may be before washing off. Sallow complexions often need only the sun to bleach them and brighten their roses.

A physician who has been investigating the properties of vegetables announces that a continuous diet of carrots ameliorates harshness of character and reduces nervous irritability. Peas and lentils create fatty tissue and encourage joyousness, while turnips have just the opposite effect, so women who consider themselves too stout or too thin can experiment with these vegetables for themselves individually and run no risk of poisoning themselves, as they may in testing chemical preparations for the increase or reduction of flesh. Celery taken in excess causes eye troubles, according to the scientist, while cabbage is beneficial in diseases of the chest, and lettuce acts as a sedative. The last named vegetable owes its influence to the opium contained in its milky juice, and eaten persistently will keep the complexion clear and fresh.

The illustration shows a cape of black silk crepon. A rippled pelerine is mounted on an embroidered yoke, from the edge of which fall two very full accordion plaited ruffles of point d'esprit tulle. A ruche of tulle surrounds the neck, and the cape is fastened by a bow of black faille ribbon tied in coques at the waist line.

## MILLINERY HINTS.

Birds Rapidly Disappearing, Victims of Feminine Vanity.

There continues to be an agitation in England over the bird question, and this, with the Egyptian plague of bugs in France consequent upon the wholesale destruction of wild birds there, seems to be causing a revulsion of feeling in regard to the matter on that side of the water, which it is to be hoped will be imported and take effect here. The secretary of the Society for the Protection of Birds, in England, calls attention to the fashion of wearing in hats and bonnets a graceful spray of soft, fine plumes, with drooping or curly tips. These milliners call bird of paradise feathers, the assurance being constantly given that they are real. They are often mixed with ostrich tips, of which, during the past season, one warehouse alone disposed of no less than 60,000 dozens. It is the general

GIRL'S TOQUE.

impression, however, throughout the trade that the fashion must soon disappear, as the supply of birds is almost exhausted. The bird of paradise most used in millinery is that obtained in the Papuan Islands and New Guinea. Since Jan. 1, 1891, strict regulations for the preservation of the bird of paradise have been in force in German New Guinea, and M. Jules Forest appeals to the English and Dutch governments to follow this good example. "Civilized women throughout the world are earnestly entreated not to countenance the sacrifice of this bird by encouraging the demand for its precious feathers. Let them do what they can to prevent the extermination of this 'wonder of nature' by stoutly refusing to purchase anything purporting to have once belonged to a bird of paradise."

The vogue of blinets appears to be unimpaired. They adorn parasols as well as hats and are seen in all shades of blue, from the palest to the darkest. Straw hats are also trimmed with artificial fruit, cherries, plums and currants, mixed, oddly enough, with lilies of the valley. Crepe de chine, mousseline de soie and lace and chiffon are much worn, but straws and chips seem to be in the ascendant this summer and are really most appropriate for moral wear.

A sketch is given of a young girl's toque of coarse yellow straw. Clusters of crushed roses are placed in front and behind, touching the hair, and an aigret of lace adorns the side.

## He Was Mistaken.

"All is over between us," said the young man who had found a richer girl and was trying to take leave of his old love. "You are mistaken," replied she. "All is not over. In fact, my breach of promise suit has not yet begun." He postponed the transfer of his affections.—Boston Traveller.
